

Many solutions include standardized, off-the-shelf components; while others require a customized approach. In both cases, we help OEMs increase productivity, reliability and efficiency for themselves and their customers

Molded Case Breakers

Safety Devices

Mini Circuit  
Breaker

Contactors

Starters

Pilot Devices

Relays

Open Soft Starts

**Quality Components**

We are committed to providing you with superior products and services, along with excellent performance and reliability. ABB components will give you a competitive edge.

Surge Protection

Open & Enclosed  
Disconnects

**PRODUCT OFFERING**

**Automatic Transfer Switches**

**Circuit Breakers**

**Contactors and Starters**

**Controls and Protective Relays**

**Measuring and Monitoring**

**Modular Bus Bar System**

**Panelboards**

**Softstarters**

**Switchboards**

**Switches and Disconnects**

**Surge Protective Devices**

**Transformers**

**Emergency Stops and Pilot Devices**

**Limit Switches**

**Optical Safety Devices**

**Pilot and Signaling Devices**

**Pressure-sensitive Devices**

**Programmable Safety Controllers**

**Safety Accessories**

**Safety Control Devices**

**Safety Controllers**

**Safety Relays**

**Mechanical Safety Switches**

**Multifunction Gate Box**

**Non-Contact Safety Sensors**

**Safety Locks and Process Locks**

**Load Interrupter Switches**
